

Symposia at the 8th EAFES

- S1:** Response and feedback of Asian terrestrial ecosystems to global warming (13:30-15:30, 21st April, Room 1)
- S2:** Protected ecosystems, people, and the place (9:30-11:30, 22nd April, Room 1)
- S3:** Soil respiration in Asian forests under climate change (16:00-18:00, 21st April, Room 1)
- S4:** The role of fine roots of woody plants in a changing world (13:30-15:30, 22nd April, Room 1)
- S5:** Biodiversity and citizen science: its potential in biodiversity monitoring and reconnecting citizens to nature (13:30-15:30, 21st April, Room 2)
- S6:** Current status and future prospect: ecological interaction research among ecosystem (13:30-15:30, 22nd April, Room 5)
- S7:** Towards elucidation of patterns and processes in ecosystems in East Asia: from monitoring to modelling and management – 1. Spatial patterns and dynamics from genes to communities (9:30-11:30, 22nd April, Room 2)
- S8:** Towards elucidation of patterns and processes in ecosystems in East Asia: from monitoring to modelling and management – 2. Population dynamics and patterns in communities and ecosystems (13:30-15:30, 22nd April, Room 2)
- S9:** Element biogeochemistry and key microbial processes of paddy soils under the dynamic redox environment (13:30-15:30, 21st April, Room 3)
- S10:** Urban landscape pattern, green infrastructure and ecosystem services (16:00-18:00, 21st April, Room 3)
- S11:** Biological interactions in aquatic food webs: ecological research and its application to environmental assessments using various organisms and materials (9:30-11:30, 22nd April, Room 3)
- S12:** Aquatic ecosystem of inorganic acidification in Japanese volcanic area - the case study in Mt. Ontake erupted in 2014 – (13:30-15:30, 22nd April, Room 3)
- S13:** Landscape ecology for sustainable society I (13:30-15:30, 21st April, Room 5)
- S14:** Landscape ecology for sustainable society II (16:00-18:00, 21st April, Room 5)
- S15:** Air pollution and its influences on ecosystems: towards international discussions at Acid Rain 2020 (9:30-11:30, 22nd April, Room 5)
- S16:** The fire ants: integrating basic and applied research (9:30-11:30, 22nd April, Room 4)
- S17:** Invasions and infections of East Asia (16:00-18:00, 21st April, Room 4)
- S18:** The impacts that the alien species caused and the management strategy to minimize the effects (13:30-15:30, 21st April, Room 4)
- S19:** Ongoing cicada research in East Asia (13:30-15:30, 22nd April, Room 4)
